Converge A/V 4 Port VGA Video Selector Switch with Remote

StarTech ID: VS415RVGA

Switch between up to four separate VGA video signals, for output to a single monitor or projector. The perfect solution for situations where VGA input ports are at a premium, VS415RVGA eliminates the hassle of having to swap out connections to your display, and allows you to select your video source at the push of a button. The included IR remote control allows you to quickly make your input selection from a distance, making this a convenient addition to presentation displays, trade shows, security environments and more.

Applications and Solutions

- > Excellent solution for connecting and switching between multiple PC's to one display.
- > Great for use in presentations, tradeshow, conferences, retail, and entertainment applications.

Features

- > Connect to your display at a maximum distance of 65 meters
- > Solid construction in a metal enclosure
- > Supports a maximum resolution of 2048x1536 with 450 Mhz bandwidth
- > Switch between PC's by using the controls on the switcher or the included remote control
