4-to-1 HDMI 1.3 Switch

StarTech ID: VS410HDMIE

Avoid the frustrations of having to swap out video devices because your display doesn't have enough HDMI inputs! With the Converge A/V VS410HDMIE 4-to-1 (four input, one output) HDMI 1.3 Switch, you can connect up to four devices with HDMI output (e.g. High Definition DVD players, Blu-Ray players, Satellite Receivers, and Video Game Consoles) to a single HDMI input, eliminating the need to manually exchange cables.

With the added convenience of the included remote control, switching HDMI sources becomes as easy as the push of a button. The VS410HDMIE HDMI 1.3 Switch also offers a signal enhancement feature that can be used with longer cable connections, boosting the HDMI signal for optimized quality.

Rely on Converge A/V to help with your A/V solutions for digital signage, education, healthcare, and retail applications.
