Easy to connect and operate

Connect your PS/2 and AT PCs* to SwitchMan using male-to-male KVM cables, or use Raritan's premium, ultra-thin coax, tangle-proof KVM cables for the highest quality video. Your standard PS/2 keyboard, PS/2 mouse, and VGA monitor plug right into the back. There is no software to load or dip-switches to set. Standard features such as individual push-buttons with LED indicators, hot-key, and AutoScan functionality make operation simple and convenient.
